

## COMMISSION INFORMATION

If you are interested in commissioning Will Todd we would love to hear from you.

Things to think about are:

- **Time Frame.** Usually Will requires at least a 2 year lead time as his diary is very full.
- **Instrumental forces.** Obviously a 5 minute A Cappella piece for choir is a very different beast to a 5 minute piece with symphony orchestra. The scale of your proposed project will affect the amount of work required and therefore the fee and needs to be established at the start of the project.
- **Duration.** Obviously this will affect both the amount of work involved and the cost
- **Type of piece and style.** Maybe you are a fan of Will's Jazz Choral catalogue or are looking for something musically similar to the Classic Choral pieces on Lux et Veritas. It could be that you are looking for a theatre piece or an orchestral work. We would be happy to discuss any of these options with you.
